

Moog Aspen Motion Technologies Environmental & Safety Statement

Moog Aspen Motion Technologies is committed to conducting its operations in an environmentally sensitive and responsible manner and to maintain a safe and healthful work environment for all employees.

We believe a sound environmental and safety policy contributes to our overall competitive strength and provides substantial benefits to our employees, customers, and community.

In executing this policy, Moog Aspen Motion Technologies commits to achieving the following Environmental Health and Safety goals:

Compliance

- Comply with the letter and intent of all applicable environmental and safety laws as well as corporate requirements.

Prevention

- Seek to prevent pollution before it is produced and reduce the amount of waste generated at our facility.

Conservation

- Minimize or eliminate the use of hazardous materials whenever possible.
- Use environmentally preferred materials throughout our operations.
- Minimize natural resource consumption.
- Recycle applicable materials.

Communication

- Communicate our environmental and safety policy throughout the company and to interested customers and community.

Continuous Improvement

- Continuously improve the effectiveness of our environmental and safety management Systems.
- Utilizing best practices, Moog Aspen Motion Technologies strives to reduce energy consumption.
- Conducting Management reviews and periodic audits, verifies progress toward environmental targets and objectives.
